| | |
|-----------------|------------------------------|
| Chemical nature | Water dispersion of silicone |
| Appearance | Clear liquid |
| Solids content | 18 ± 1 % |
| pH | 4,5 – 6,5 |
| Ionicity | Cationic |

Applicazioni

UNITOUCH RM 4222 è una nanoemulsione siliconica che per la sua eccezionale stabilità e le buone caratteristiche antistatiche puo' essere utilizzata nelle applicazioni a rullo dei fissativi poliuretanic , non influenzando assolutamente la migrazione del colore.

Main applications

UNITOUCH RM 4222 is a nanoemulsion of silicone which can be advantageously used for roller application of polyurethanic top coats for its outstanding mechanical stability and its good anti-static features, without affecting the colour migration.
