

UNISOL TSW

Tensio active product for soaking and washing

Typical Analysis

Appearance	: Transparent liquid
pH (10% sol.)	: 7.0 ± 0.5
Active Substance	: 50 %
Ionic Character	: Non-Ionic

Properties

Unisol TSW for its particular formulation performs a high soaking power on dry salted and dry hides. It is also suitable for wetting back of wet-blue and crust leather. The penetrating force of **Unisol TSW** enables water to be easily carried inside the cross-section of the pelts offering a quick and easy soaking and wetting.

Application

The recommended dosage of **Unisol TSW** is around 0.2-0.6 % according to the different kinds of leather and to the specific action to be obtained.
