

UNITAN FILL

Filler based on Protein Compound

Typical Analysis

Appearance	: White Powder
pH (10% sol.)	: 5-7
Active Substance	: 100 %
Ionic Character	: Non-ionic

Properties

Unitan FILL is protein filler with excellent filling properties and it is suitable for all types of leather. **Unitan FILL** can be used on chrome and vegetable retanned leathers on its own or in combination with synthetic and vegetable tannins. **Unitan FILL** gives very good fullness at the same time with a soft and round touch for the grain.

Application

Unitan FILL is suggested quantities are 3-5% before tanning. Also it can be added to the fatliquoring bath before fat liquors around 2-4% on shaved weight.
